Dear Humboldt County Planning Commissioners and Planning Staff,

I support Plan Alternative A of the Energy Element, Chapter 17 of the Humboldt County General Plan Update. To improve the document, please incorporate the specific recommendations of principal author of the Humboldt County Energy Element Technical Background Report, Jim Zoellick.

Humboldt County must set aggressive planning goals now for infrastructure that is built around energy efficiency, renewable energy, and alternative transportation.

By designing communities that are compact, community-oriented, and designed for public transportation, we will reduce our greenhouse gas emissions and create an affordable and enjoyable future for generations to come.

Signed: Scott M. Menzies Date: 4/19/07

Print name: Scott M. Menzies
