**Subject:** FW: Economic Development Element of the General Plan

Hi Jacqueline,

The element mentioned the "Airport" a few times.

A recommendation is to mention the other five general airports and the need to protect their viability along with Arcata/Eureka Airport by creating policies to limit or eliminate new conflicting land uses adjacent to each Airport. Garberville, Murray Field, and Rohnerville airport provide services for air couriers (small air freight carriers), air ambulances, air charter, law enforcement and private pilot activities. Each airport is critical to the community it serves during natural disasters due to the rural nature of Humboldt County.

Please call me if you have questions.
