General Plan Overview: The Humboldt County General Plan addresses present and future land use and development criteria for the unincorporated portion of Humboldt County. Under state planning law, counties and cities are required to prepare and adopt comprehensive long-range general plans for the physical development within their jurisdictions. The general plan must include discussion of land use, circulation, housing, conservation, open space, noise, and safety issues either in distinct "elements" or combined as deemed appropriate. The Humboldt County General Plan Update project will include associated zoning amendments.

The Humboldt County General Plan establishes the kinds, locations and intensities of land uses as well as applicable resource protection and development policies within the unincorporated areas of the County. The associated zoning, including zone reclassifications and zoning ordinance text amendments as may be found consistent with the Plan will provide specific implementation of the land use plan.
