IN THE REDWOODS

Local Fire Response, land ownership, and infrastructure data has been compiled by HCCDS. RAMS Planning Compartments were compiled by RNB. Fuel Hazard Rank (2004) from CDF FRAP is based on expected fire behavior for unique combinations of topography and vegetative fuels under a given severe weather condition (wind speed, humidity, and temperature).

This map is intended for planning purposes and should not be used for precise measurement or navigation.

Map compiled by Humboldt County Community Development Services (HCCDS), July 2004. Contact: cdevis@co.humboldt.ca.us
